

Project Next Generation

Hayner Public Library at Alton Square Mall

Do you like the outdoors? Enjoy wildlife?

Do you like learning new technologies?

Do you enjoy the idea of combining these two hobbies?

Then **Project Next Generation** at **Hayner Public Library** may be just what you're seeking!

We'll be offering a program that will combine a study of the natural environment around the Alton area with how technology can make exploring the great outdoors even more fun. Using geo-caching, a sport that's growing in leaps and bounds, we'll learn about the bald eagle and other migratory animals while searching for hidden caches in the Riverbend area.

If you like exploring, enjoy being outdoors year-round, and like learning about new technologies, this is for you!

- Eagle watching
- Geo-caching
- Creating with computers
- Live presentations

Dates to set aside: 1/19/10 through 2/18/10 (Tuesdays and Thursdays)

Time: 3:30—4:45 p.m., with one Saturday field trip from 9 a.m.—3 p.m. (picnic lunch)
