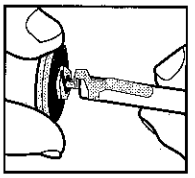
Rubbermaid
Commercial Products

Dishwasher Safe Pocket
0° – 220°F

Rubbermaid Commercial Products is committed to being your trusted partner in the foodservice industry. Designed and tested to withstand the rigors of the foodservice environment, Rubbermaid promotes safety and efficiency throughout your operation-from your food, to your employees and patrons.

This Thermometer Features:

- Dishwasher safe design for proper cleaning and sanitization to reduce risk of cross contamination
- Sheath features field calibration tool to promote daily calibration for accurate temperature reads
- Shatter resistant lens and stainless steel construction
- Innovative-anti roll design prevents thermometer from falling and posing a contamination risk
- **Use:** Before using the thermometer, make sure stem is clean.
- **Clean:** Dishwasher safe, wash in dishwasher, or by hand.
- **Calibration Instructions:** Immerse thermometer and sheath into a 50/50 shaved ice and water solution until the indicator stabilizes (do not touch sides or bottom of the container during this process). Slide sheath with pocket clip into the notch on the nut underneath the thermometer (see diagram). Turn nut underneath thermometer with wrench to adjust calibration until indicator reads 32°F.



Rubbermaid offers a full line of products designed to increase safety and productivity. Please visit www.rcpworksmarter.com for more safety and product solutions. For product questions please call customer service at 1-800-347-9800.
